NC STATE UNIVERSITY | SCHOOL OF ARCHITECTURE
MASTER OF ARCHITECTURE NON-ACCREDITED DEGREE REVIEW

Student's Name: __Master Template__

The following represents an evaluation of your pre-professional degree transcript and the courses you will need to complete the B. Arch. program.

The Master of Architecture Track 1 program is designed for students with a preparatory education similar to NC State University's Bachelor of Environmental Design in Architecture (BEDA). Track 1 students should have completed all of the prerequisite courses (see list below) during their undergraduate education or should schedule them as additional requirements during their graduate program. If additional courses are required, then the Director of Graduate Programs (DGP) will alert the admitted students. We review accepted students' transcripts and portfolios to ensure that curricula are similar, and that they meet appropriate National Architectural Accrediting Board (NAAB) performance criteria. If further clarification is required, then we may request additional documents (e.g. course syllabi and assignments) from the student. The following indicates our evaluation of your pre-professional (non-accredited) degree transcript. A "●" indicates that you have satisfied the requirements of this course in your pre-professional degree program. A "✔" indicates that you have not satisfied the requirements of this course in your pre-professional degree program, and you will need to take the course as an additional requirement to the standard 48 credit hours of courses in the M.Arch. degree program at NC State University.

● = completed
✔ = to be taken

		CR	Complete	Equivalent
PREREQUISITE COURSES[3]				
	Studio (8 semesters)	48	●	_____
ARC 211	Natural Systems and Architecture	3	●	_____
ARC 232	Structures and Materials	3	●	_____
ARC 241	Introduction to World Architecture	3	●	_____
ARC 242	History of Western Architecture	3	●	_____
ARC 251/451	Digital Representation	3	●	_____
ARC 331	Architectural Structures I	3	●	_____
ARC 332	Architectural Structures II	3	●	_____
ARC 414	Environmental Control Systems	3	●	_____
ARC 432	Architectural Construction Systems	3	●	_____
ARC 441	History of Contemporary Architecture	3	●	_____
ARC 250/450	Architectural Drawing	3	●	_____
ARC 332	Architectural Structures II	3	●	_____
